

THE ITARHI ROAD RAILWAY OVERBRIDGE (ROB)

Itarhi Road Railway Overbridge (ROB): This major flyover connects the bus stand area to the main route, providing a crucial alternative to the eastern railway crossing (Gate No. 70).

Status: Fully operational as of April 2026.

Impact: It eliminates the need for commuters to wait at the Itarhi railway crossing, significantly reducing traffic congestion in Buxar town.

Operational Success & MLA Anand Mishra's Role

The project's recent completion is widely attributed to the intervention and persistence of MLA Anand Mishra.

Accelerated Completion: Upon taking office, he prioritized long-pending development projects. Local reports indicate that his direct inspections and coordination with the Bihar Rajya Pul Nirman Nigam were instrumental in finishing the remaining approach road work by May 2026.
