

## THE RESOLUTION OF THE KENDRIYA VIDYALAYA BUXAR LAND ISSUE

*The resolution of the Kendriya Vidyalaya Buxar land issue which had been pending for over 23 years is considered one of the most significant achievements of MLA Anand Mishra since taking office. Here is how he navigated the process to solve this long-standing problem:*

**1. Fulfilling a Core Election Promise:** *During his campaign, he identified the lack of a permanent campus for KV Buxar as a major hurdle for local students. He made it a priority to resolve the land bottleneck within the first phase of his tenure.*

**2. High-Level Administrative Intervention :** *Soon after becoming the MLA, he initiated a series of meetings with the District Administration, the Revenue Department, and officials from the Kendriya Vidyalaya Sangathan .*

*\* He worked closely with the Chief Secretary and pushed for the fast-tracking of the NOCs required from various state departments.*

**3. Legislative Advocacy:** *He used the floor of the Bihar Legislative Assembly to highlight the educational deprivation faced by the children of Buxar due to the lack of a permanent KV building. By making it a state-level issue, he ensured that the bureaucratic delays at the secretariat level were minimized.*

**4. Result: Land Transfer (February 2026):** *In early 2026, the official transfer of land to the Kendriya Vidyalaya Sangathan was completed. This effectively ended the school's temporary status, which had lasted for more than two decades. This success is frequently cited by his supporters as a prime example of his "Result-Oriented Governance" and his commitment to the youth of Buxar.*
