

6.5 KM MEGA RIVERFRONT PROJECT

Transforming Buxar's Identity:

A Unified 6.5 KM Corridor: For the first time, all major ghats from Ahilya Ghat (Ahirauli) to Jail Ghat including Ramrekha, Siddhanath, and Muktidham will be structurally linked into one continuous, beautiful riverfront network.

Grand Pedestrian Pathway: A wide, paved walkway along the entire 6.5 km stretch, designed for peaceful morning walks, spiritual parikramas, and safe tourist movement.

Modern Devotee Amenities: High-capacity changing rooms, clean public utility stations, safe concrete embankments and organized parking complexes to comfortably manage heavy festival crowds during Chhath Puja and Kartik Purnima.

Stunning Evening Aesthetics: Installation of high-mast landscape illumination and specialized architectural facade lighting to elevate the beauty of our evening Ganga Aartis.

Project Status and Timeline

DPR Phase: BUIDCO has formally issued applications for experienced urban planning agencies to draft the final DPR and Master Plan.
